DVD

I. America is now suffering a second and a third nuclear plant crisis!

Japan is still reeling from her nuclear disaster.

NEWS BRIEF: "[Flooded Ft Calhoun Nuclear Plant: 4 emergency failures, 2 electric](#)", Examiner News, June 26, 2011

"As an astounding 195,000 cubic feet of water per second raged past Omaha today, the public was told that the nuclear plant across the flooding river from the city, the Fort Calhoun Nuclear Station, poses no danger since it is closed, albeit flooded, and as of today, operating on emergency electricity, the fourth emergency there in recent days, the second power failure emergency. The Wall Street Journal (WSJ) confirmed Sunday that the plant requires electricity to avoid melting the core, even though the plant is 'closed'."

Since the disaster at Three Mile Island and at Chernobyl, I have been personally convinced that the dangers inherent in nuclear power generating plants were too high and that, eventually, the world would suffer some really serious crises. Therefore, I was amazed when government officials around the world began to espouse the safety of nuclear power plants during the early 1990's and began to build nuclear power plants by the many dozens throughout the world.

Now, the "chickens seem to be coming home to roost" in the nuclear power industry.

Let us return to the Ft. Calhoun power plant.

"The Nuclear Regulatory Commission audits only about 5 percent of activities at nuclear plants each year according to the Union of Concerned Scientists. Two-thirds of US Nuclear Plants have been leaking radiation and Ft. Calhoun has been among the nation's 14 most dangerous nuclear plants before it was flooded and operating with emergency electricity according to a Nuclear Regulatory Commission letter."

Does this sentence mean that Ft. Calhoun Nuclear Power Plant was simply a "disaster ready to happen"? Why can't government regulators ever carry out their jobs reasonably

and professionally? Perhaps it is time to get the incompetent government out of the business of regulating anything!

Do you remember the disaster at New Orleans during Katrina? That hurricane came and went and the levees held. Residents began to breathe a sigh of relief. But, suddenly, in the darkness of night, residents heard what sounded like explosions in the direction of the levees; abruptly, the levees collapsed and massive quantities of water gushed to engulf the city.

The government took the action it needed to take to damage New Orleans to the degree its leaders wanted it to be damaged. Do you remember the shocking FEMA prediction on September 10, 2001, that New Orleans would be destroyed by a hurricane? Let us stroll down this memory lane:

"NEWS BRIEF: **"12 lessons that S.C. can learn from Katrina"**, The State Newspaper, September 4, 2005

"In 2001, the Federal Emergency Management Agency ranked the most likely and deadly disasters that could befall the United States. The top three were a terrorist attack on New York, an earthquake in San Francisco and a hurricane in New Orleans. The list was announced at a conference on Sept. 10. The next day was 9/11."

This news is so incredible that we need to stop right here, so we can accurately understand what we have just been told. On September 10, 2001, FEMA accurately "predicted" the "three most likely and deadly disasters that could befall the United States". These deadly disasters foretold were:

- 1) Terrorist attack on New York
- 2) An earthquake in San Francisco
- 3) A hurricane in New Orleans

(Quote taken from Headline News Article, [NEWS2104](#), entitled, "**Startling Revelations: Now You Know Why The Illuminati Telegraphs Its Punches**")

On the very next day after this FEMA prediction, the attacks of 9/11 occurred -- the Twin Towers and The Pentagon were attacked, precisely as the [Illuminati Card Game](#) predicted in 1995! Obviously, disasters #1 and #3 from this list have already occurred. Therefore, one has to worry that an unprecedented earthquake on the West Coast -- either in Los Angeles or San Francisco -- might be next on the "hit list" of the Illuminati. Remember, [Scalar Wave Technology](#) can produce both hurricanes and earthquakes in whatever magnitude is desired, and precisely at the location desired.

It is shocking, almost beyond belief, to understand that the government knew what disaster was going to befall New York City and New Orleans; these disasters were

planned in order to overthrow this Old World Order so the New World Order can be established!

Many people believe the government deliberately sabotaged the levees protecting New Orleans. We may be facing the same situation at Ft. Calhoun!

"Locals in the Fort Calhoun area who know workers at the plant are attributing the collapsed berm to a 'man-made puncture' according to reports to Dupré. The Omaha World-Herald reports that Omaha Public Power District admits the anti-flood water filled rubber berm (the 'Aqua-dam') failed 'due to on-site activities'. It is unclear what type of utility 'activities' caused the berm's 'accidental failure'."

DVD

Does the government want the situation at Ft. Calhoun to degenerate still further, to scare residents to a higher degree than they are currently scared? Remember, Doc Marquis reveals in his new DVD, ["2012 & Beyond: Paradigm Shift"](#), that the Illuminati plans call for a constant level of worry and concern, as a means by which they will ultimately persuade mankind to accept the New Order of the Masonic Christ.

This level of general worry permeates the globe today. Threats to our health, to our economy and to many sectors of society on which we depend are keeping most of mankind constantly in inner turmoil.

However, Ft. Calhoun is not the only nuclear scare in America today!

NEWS BRIEF: "[NM blaze threatening nuclear lab, sparking fires](#)", Yahoo News, June 28, 2012

"LOS ALAMOS, N.M. (AP) — Firefighters worked through the night and into Tuesday hoping to put out spot fires erupting ahead of a wildfire in the mountains above the northern New Mexico town that is home to a government nuclear laboratory ... The ominous orange haze was visible at night from deserted Trinity Drive in Los Alamos, from which 12,500 residents were evacuated."

"The wildfire has destroyed 30 structures south and west of Los Alamos. It forced the closure of the lab ... Laboratory officials said the wildfire sparked a spot fire on its property that was soon contained Monday, and no contamination was released. They also assured that radioactive materials stored in spots on the sprawling lab were safe."

This reassurance is a refrain we have heard before by government officials, only to learn later that the original happy news was very wrong.

"The anti-nuclear watchdog group Concerned Citizens for Nuclear Safety said the fire appeared to be about 3.5 miles from a dumpsite where as many as 30,000 55-gallon drums of plutonium-contaminated waste were stored in fabric tents above ground. The group said the drums were awaiting transport to a dump site in southern New Mexico."

The last quote from this article is not particularly reassuring.

"... 'you never are safe when you have such a dry situation and you have fuel load and you have vicious winds like this', said Sen. Tom Udall, D-N.M., who visited evacuees at the Santa Claran Hotel Casino in Espanola. 'When you combine all of those together, (it's) very explosive'."

At this point, let us examine current news on the nuclear contamination spread from the Japanese nuclear plant, Fukushima.

NEWS BRIEF: "[Japan's nuclear waste spreads through Pacific](#)", ABC Radio News, Australia, 28 June 2011

"Japanese scientists predict that radioactive material leaking from the crippled Fukushima nuclear plant will spread 4,000 kilometers through the Pacific Ocean in the next year. Japan's Atomic Energy Agency says the caesium contamination will also reach Hawaii in three years, Then it will wash along the United States west coast in five years."

Now comes the official reassurance:

"But the agency says by that time the caesium will not pose a threat to human health."

The Pacific Ocean contains an awful lot of water, and Japan's scientists are calculating that this nuclear contamination will be safely diluted by the time it reaches Hawaii and the United States. We certainly hope they are right.

The bottom line seems to be that this Illuminati Card entitled, "Nuclear Accident" may have a more planned outreach than we originally thought, as the world is now witnessing nuclear power plant crises in Japan and the United States, plus a wildfire threatening the nuclear lab at Los Alamos.

DVD

II. As the world is spinning quickly toward a truly cashless society, has anyone thought that the government could then propel its control over its citizens to a new holocaust?

Such a systematic murder of government "dissidents" may be the ultimate goal of the Global Elite.

NEWS BRIEF: "[Playing with Fire in a Cashless Society](#)", by Ben Parry, InfoWars, June 27, 2011

"... you have heard of the credit society where people are enabled to get credit cards and buy shoes and things at the store based on a credit card, but if your credit goes bad you can't use your credit card. But even if your credit goes bad, you can still take a five dollar bill, go into the grocery store and buy yourself some bread and some milk."

The existence of cash money has always rankled the planners of a future society where "no man can buy or sell same he that has the mark". It is true, that anyone can take cash money into a store to buy his needs, even if his credit has been choked off, at the flip of a switch somewhere. How can citizens be denied this type of cash transaction?

"Under the cashless society, with one click, you can be DE-listed from having a transaction ... we're not burdened with dollar bills and things. There's a dark side to that ... This is a great convenience and also a great avenue to individual destruction. A great avenue toward the confiscation, not of money, but of personal liberty."

"Imagine what would happen if the government ... decides that it can push a button to stop somebody from having a transaction. They can already push a button and stop your master card in a moment's notice, but can they actually push a button and stop you from buying bread? That's what the cashless society will do."

Obviously, the world is not yet at this truly cashless point. But, we are being prodded in that direction speedily! Implanted chips are said to be the key for government to control every citizen in the way the prophecy of Revelation 13:161-8 demands!

"These are the Promethean issues that face us with the cashless society, which is merely the next step in a society which is controlled and mass controlled and centralized ... Onto the stage and into the lime light steps the Verichip, the world's first and only FDA approved implantable microchip for humans. Get implanted with this RFID chip, and forever you can be 'read' with a hand held device ... Cashless Society. There are only two options before us, for a truly cashless society to exist. One involves our mobile phones incorporating every piece of data usually stored on plastic cards in our wallets – Medicare, licenses, credit and bank cards, etc. Or an [implantable RFID microchip](#)."

Now that government can instantly identify anyone at anytime, and anywhere, the next holocaust is guaranteed! Doubt it not. This author explains:

"... 'what took Hitler repeat efforts with IBM cards, program after program, to register the Jews, to exclude them from society, to confiscate their assets, the fourth area was ghettoization, the fifth is deportation, the sixth is extermination' explains Edwin. 'That long process can now be done in a moments notice with a click of a button.'"

At this point, the author of this article turns to the only "conspiracy" which exists in the world today.

"Edwin Black has documented corporate collusion with governments and offers a blunt warning to all who are willing to listen. Is the cashless society the next step towards another holocaust? A technological holocaust, at the discretion of those who control the digital money? If a corporation as large and as influential as IBM can remain as predominant and influential as it is, even with their genocidal history exposed, how can anyone deny a conspiracy exists?"

We concur wholeheartedly. The Global Elite are rapidly creating the capability of identifying every single person in the world and forcing them to buy and sell only through this ["Mark of the Beast"](#) system. When the time comes for Antichrist to begin murdering dissidents, his officials can know exactly where they are and when they can be arrested.

Don't you find it amazingly reassuring that this entire End of the Age system was foreseen and foretold by the Almighty God Who came to die for our sins so we may live with Him eternally?

III. One expert predicts that mankind will encounter aliens in no more than 20 years!

I heard with my own ears a House of Theosophy leader brag that aliens and UFO's will aid the New Age Christ when he appears.

NEWS BRIEF: "[Alien encounters 'within twenty years'](#) ", The Guardian (London), 27 June 2011

"Russian scientists expect humanity to encounter alien civilisations within the next two decades, a top Russian astronomer said on Monday. 'The genesis of life is as inevitable as the formation of atoms ... Life exists on other planets and we will find it within 20 years' said Andrei Finkelstein, director of the Russian Academy of Sciences' Applied Astronomy Institute."

Listen to the importance of aliens to the plan for the New World Order.

"ALIENS, UFO'S -- WHY ARE THEY CONSTANTLY IN THE NEWS, IN MOVIES AND TV SHOWS? WHY ARE WE BOMBARDED WITH EXPERTS CLAIMING THEY HAVE PROVEN EXISTENCE OF EXTRATERRESTRIALS?" [NEWS1500](#).

"WHEN UFO'S ARRIVE: POPULAR MECHANICS CONDITIONS ITS READERS TO ACCEPT THE REALITY OF UFO'S AND THE ALIENS THEY WILL BE CARRYING" [NEWS1912](#).

Many times, the truth is stranger the fiction. It just is usually hidden behind a propaganda facade generated by Mass Media! Never forget this unpleasant truth.

DVD

IV. The Illuminati is very close to seizing control over the world's food supply, one of their most coveted goals.

Famine and the high cost of seed is the Third Seal of Revelation; Monsanto can cause these disasters to happen through control of "terminator seed".

NEWS BRIEF: "[Monsanto trying to take over world seed supply, nation by nation](#)", by Kaitlyn Moore, Natural News, June 27, 2011

"He who controls the seed controls the food supply; and he who controls the food supply controls the world. There is no question that Monsanto is on a mission to monopolize the conventional seed market. In fact, they are steadfastly working towards the goal of creating a world where 100% of all commercial seeds are genetically modified and patented- basically a world where natural seeds are extinct."

We have been warning of the dangers of this genetically modified seed since the mid-1980's, but few people listened. Now, Monsanto has a seed which has been dubbed the "terminator seed", a seed which produces a plant which does not produce seeds for a future planting; in effect, the seeds produced by Monsanto plants are sterile.

This startling reality means that Monsanto has a one-year grip on the food supply of the nations of the world. When you couple this frightening reality of sterile seeds with the fact that most of the nations of the world have steadily been drawing down their emergency supply of food, you have a situation of almost unbelievable proportions.

Some nations have even made it illegal for their citizens to buy or sell or plant seeds which produce plants that grow fertile seeds. How is that for "proof of a conspiracy"?

The time is soon coming when a nation which refuses to buy high-priced Monsanto seed will simply starve that year. Literally, Monsanto can single-handedly cause the famine and death of Seal Three in Revelation 6!

How close is Monsanto right now to gaining 100% control of the world's supply of seed?

"Unfortunately for the global community Monsanto is accomplishing their purpose. They currently own 90% of the world's patents for GMO seed including cotton, soybeans, corn, sugar beets and canola. "

"Farmers that sign up for Monsanto's seeds of destruction find themselves hooked. Year after year, no matter what prices are being charged, they are dependent on GMO seeds for new crops because GMO seeds - the bastardized versions they are - don't regenerate."

Yes, profits will be huge.

But, the real danger is that, as the world spins closer and closer to the appearance of Antichrist -- and most Christians believe we are very, very close -- profits are less important than the strength and support a company like Monsanto can provide to the Masonic Christ in his attempts to ruthlessly thin world population by over 4 billion people!

Commentary Set

Let us now examine the wording of Seal Three, Revelation 6.

"... when he had opened the third seal, I heard the third beast say, Come and see. And I beheld, and lo a black horse; and he that sat on him had a pair of balances in his hand. And I heard a voice in the midst of the four beasts say, A measure of wheat for a penny, and three measures of barley for a penny..." (Revelation 6:5-6)

This Jamieson-Faussett-Brown Commentary -- Spurgeon's favorite commentary -- provides this insight to this incredible prophetic passage.

The color of this horse is black, "implying sadness and want".

However, God does show mercy as He limits the amount of inflationary pressure this Seal Judgment delivers the world.

"A Measure -- While making food scarce, do not make it so much so that a chænix (about a day's provision of wheat, variously estimated at two or three pints) shall not be obtainable "for a penny" (denarius, about twenty cents, probably the day's wages of a laborer)."

"Famine generally follows the sword", which is significant because Seal Two judgment was unbelievable global war, from a special kind of "huge sword" wielded by the supernatural rider.

"The sword, famine, noisome beasts, and the pestilence, are God's four judgments on the earth ... three measures of barley for a penny -- the cheaper and less nutritious grain, bought by the laborer who could not buy enough wheat for his family with his day's wages, a denarius, and, therefore, buys barley."

Interestingly, God seems to spare the rich in this calamity.

"... see thou hurt not the oil, and the wine -- the luxuries of life, rather than necessities; the oil and wine were to be spared."

While God is using wicked leaders of the worldwide Antichrist movement to deliver famine and death to the rest of the world, He evidently is sparing these leaders until a later, more terrible judgment befalls them. Four years ago, Cutting Edge posted an article in which we note the prophetic evidence that God is going to allow some nations to experience prosperity into the first 3 1/2 years of Tribulation.

This Headline News article is entitled, "[Will Some Nations Experience Economic Prosperity In The Tribulation Period?](#)", [NEWS2239](#).

This current news story about Monsanto just reinforces our belief when we posted this article in 2007. God is going to allow some nations to experience prosperity for a time into the Tribulation, reserving judgment for these nations for a later time, and a more terrible judgment.

-----Concluding Inspiration -----"Looking unto Jesus." Hebrews 12:2

"It is ever the Holy Spirit's work to turn our eyes away from self to Jesus; but Satan's work is just the opposite of this, for he is constantly trying to make us regard ourselves instead of Christ. He insinuates, "Your sins are too great for pardon; you have no faith; you do not repent enough; you will never be able to continue to the end; you have not the joy of His children; you have such a wavering hold of Jesus." All these are thoughts about self, and we shall never find comfort or assurance by looking within. But the Holy Spirit turns our eyes entirely away from self: He tells us that we are nothing, but that "Christ is all in all." Remember, therefore, it is not thy hold of Christ that saves thee—it is Christ; it is not thy joy in Christ that saves thee—it is Christ; it is not even faith in Christ, though that be the instrument—it is Christ's blood and merits; therefore, look not so much to thy hand with which thou art grasping Christ, as to Christ; look not to thy hope, but to Jesus, the source of thy hope; look not to thy faith, but to Jesus, the author and finisher of thy faith. We shall never find happiness by looking at our prayers, our doings, or our feelings; it is what Jesus is, not what we are, that gives rest to the soul. If we would at once overcome Satan and have peace with God, it must be by "looking unto Jesus." Keep thine eye simply on Him; let His death, His sufferings, His merits, His glories, His intercession, be fresh upon thy mind; when thou wakest in the morning look to Him; when thou liest down at night look to Him. Oh! let not thy hopes or fears come between thee and Jesus; follow hard after Him, and He will never fail thee.

"My hope is built on nothing less
Than Jesus' blood and righteousness:

I dare not trust the sweetest frame,
But wholly lean on Jesus' name."

"Morning and Evening Devotions", by C.H. Spurgeon
