Key Events

I. Iran seems to be pushing into her final stage of her 2003 plan by which she scripted the defeat of the United States in Iraq plus the annihilation of Israel!

Do you remember this insidious plan? We posted it in late March, 2003, just as Coalition Forces were attacking across the Iraqi border!

NEWS BRIEF: ["KAHLILI Opinion: Luring Israel into war"](#), The Washington Times, By Reza Kahlili. 24 August 2011

"Iran's supreme leader, Ayatollah Khamenei, has ordered the Revolutionary Guards to draw Israel into another Middle East war through their Islamic Jihad, Hamas and Hezbollah proxies in an effort to save Bashar Assad's brutal regime in Syria ... The ploy appears to be working, as Israeli opposition leaders are demanding the Netanyahu government launch a major military campaign against the terrorist-controlled Gaza Strip."

What specific actions of war are being carried out by these Iranian "proxies"?

"Just in the past few days, militants in the Hamas-ruled strip have bombarded southern Israel with more than 100 rockets and mortars. The instability in Cairo with the fall of the Mubarak regime has helped the Iranian-backed terrorists in the Sinai area attack Israel from within Egypt's borders and has enabled Iran to smuggle in thousands of rockets to arm the militants. On Aug. 18, gunmen infiltrated Israel and killed six civilians and two soldiers. And at least one civilian was killed and 20 others were wounded in the rocket attacks."

But, Iranian leadership was also active on the diplomatic front.

"The Iranian leader had previously sent a letter to President Obama warning him that unless he avoided interfering in Syria's affairs, consequences would take place in Afghanistan and Iraq. As the White House continued its condemnation of the atrocities in Syria, attacks against U.S. forces picked up in both Iraq and Afghanistan, with several U.S. fatalities. When Mr. Obama openly called for the ouster of Mr. Assad last week, Iran retaliated by handing out eight-year sentences to the two American hikers held since 2009 on charges of espionage."

We submit to you that these actions by the Iranians had nothing specifically to do with Syrian President Assad; rather, Assad is merely the current anvil on which a long-term Iranian strategic plan for the Middle East is being carried out. During the first week of the Iraqi War (March 20, 2003), Iranian diplomats were being ferried by jet to every single Arab capitol in the region! We posted this article during this week, so let us review pertinent portions of the Iranian strategy.

[**NEWS1910**](#), entitled, **"HAS IRAN 'IGNITED MANY FIRES' TO SET OFF MIDDLE EAST REGIONAL WAR? Jordanian official warns that World War III might have just begun!"**

Reviewing some excerpts:

"NEWS BRIEF: 'Iran Preparing To 'Light Many Fires' To Defeat The Americans', The Jerusalem Post, March 21, 2003

" 'The American Great Satan will never accept an Islamic system. It is coming to Iraq to complete its encirclement of our Islamic Republic before it moves against us. To help the Americans conquer Iraq easily would be suicidal for our revolution.' [Khamenei's chief foreign policy adviser, former Iranian foreign minister Ali-Akbar Velayati]. Velayati claims that the US has two aims in the Middle East: preventing the destruction of the 'Zionist entity' and control of Arab oil."

"UNLIKE THE accommodationists who foresee an easy American victory, the confrontationists believe that US involvement in Iraq could become 'the beginning of its end.' He explains:

" 'Iraq is a swamp', Khamenei said in his address to the guards. 'The Great Satan will get caught in that swamp; and that will speed up its inevitable collapse'. In a recent article Velayati spelled out a strategy aimed at 'confronting the Great Satan in a number of fronts.' "

What were the "fronts" upon which Iran hoped to engage America and defeat her, while destroying Israel in the process?

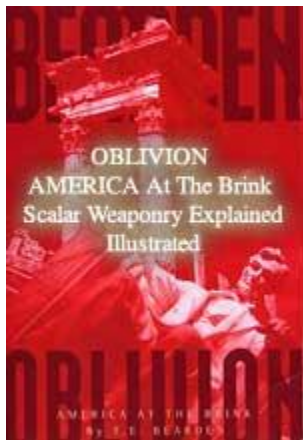

1. Iraq
2. Afghanistan
3. Azerbaijan
4. Israel

With the exception of Azerbaijan, Iran has been engaging America in just this manner in an effort to bog us down in a swamp so they could defeat us! Now that America is committed to withdrawal in both Iraq and Afghanistan, the time has evidently come to engage us in Israel. Remembering that this Iranian plan was published in late March, 2003, notice the emphasis on Syria, Lebanon, and Egypt. Returning to our March, 2003, article, we read:

"NEWS BRIEF: "Jordanian prince in WWII warning", By Lucy Williamson, BBC Middle East reporter, BBC News, Friday, 26 March, 2004

"Prince Hassan of Jordan has said he fears a third world war is erupting in the Middle East .. Extremist voices in the region were rising, and not only individuals but states were taking the law into their own hands, the prince said. He was speaking after a week in which Israel assassinated the spiritual leader of Palestinian militant group Hamas, Sheikh Ahmed Yassin ... The prince said he feared the violence currently marking Israeli-Palestinian relations would spread to other countries in the region ... '... at the present time that I'm afraid the making of a third world war are actually taking place in front of our very eyes' ... I'm afraid we'll see spillover into hostilities with Lebanon; already Hezbollah is bombing in the north ... A spillover into hostilities with Syria... and of course Iran is still very much on the axis of evil'."

This 2003 Iranian plan is driving current hostile acts against Israel!

II. China is said to be expanding her stockpile of nuclear warheads.

Is this reason to be afraid? This Mass Media article wants you to be afraid.

NEWS BRIEF: "[China expanding its nuclear stockpile](#)", The Washington Times, August 25, 2011

"China is expanding its nuclear forces with a new multiwarhead mobile missile and keeps its strategic stockpiles in deep underground bunkers, the Pentagon disclosed in its annual report to Congress on the Chinese military ... China is both qualitatively and quantitatively improving its strategic missile forces," the report states. "Beijing will likely continue to invest considerable resources to maintain a limited nuclear force ... to ensure the [People's Liberation Army] can deliver a damaging retaliatory nuclear strike."

"The report states for the first time that China appears to be developing a third road-mobile ICBM, possibly capable of carrying a multiple, independently targetable re-entry vehicle ... A disclosure in the annual assessment reveals China's deep-underground facilities in the north that is connected with more than 3,000 miles of tunnels. The facilities are used for storing and hiding missiles and nuclear warheads, and for command bunkers hardened against nuclear attacks."

The undiscerning person will likely feel frightened enough by this assessment that they will support increased Pentagon funding designed to "counter" the Chinese threat. However, discerning people who have been investigating Defense Secretary William Cohen's revelation (above) that scientists do control the weather and do set off earthquakes and volcanoes through electromagnetic waves, will have investigated far

enough to realize that both HAARP and Scalar electromagnetic waves are lethal **[Weapons of Mass Destruction!](#)**

LTC Bearden, in his book, "Oblivion" America At The Brink", discloses several very interesting factors concerning the ability of scalar weapons:

1) Russia's Quantum Potential Weapons can "dud" every nuclear warhead, every ICBM, every nuclear propulsion system, every bomber carrying nuclear warheads, within 10 minutes! Our entire arsenal of nukes would be totally "dudged" -- neutralized -- so that we will be totally at the mercy of the Russian government.

2) Israel, the United States, Russia and China all have the capability to erect 100% effective missile shields over their land mass!

Russia perfected her Scalar Wave technology in 1986, forcing US President Ronald Reagan to agree to a nuclear arms treaty immediately! Russia's scalar could "dud" every nuclear warhead in anyone's arsenal within 10 minutes, thus rendering every nuclear warhead on earth useless!

Furthermore, Russia's Scalar Waves could erect such an effective missile shield over her country that no American missile or airplane could penetrate Russian airspace. Overnight, Russia checkmated the entire American Strategic Missile Systems, both offense and defensive. The only course of action President Reagan could take was to reach agreements with Russia to scrap tens of thousands of both missiles and nuclear warheads -- and claiming he was the peacemaker.

At this point, you are probably saying, "if Russia had this kind of superiority over America, why didn't they strike and strike instantly?"

Please take a few moments to read the answer, in two articles:

And, now, the real prophetic reason the Russians did not attack us once they gained strategic nuclear edge over us:

III. President Obama has allowed -- furthered -- an incredibly deep penetration of his White House staff by Muslim extremists?

NEWS BRIEF: "Infiltration of the federal government by members of the radical Muslim Brotherhood is worse than some have warned recently, says a former FBI special agent in Washington. The agent confirmed that at least three operatives of the Egypt-based Brotherhood – whose credo is 'Jihad is our way and death in the cause of Allah is our dream'– have penetrated the Obama

administration."

"Today in the White House, there are three members of the Muslim Brotherhood that influence Obama's policy," he told the audience gathered for an IdeaCity conference. "One is Rashad Hassan, who is the American ambassador to the 52-nation Organization of Islamic (Conference)."

Does anyone now doubt that Barack Obama is a Muslim?
