I. Mainstream acceptance of Mormonism in America is boldly demonstrated through the reality that two (2) devoted Mormons are now running for President!

NEWS BRIEF: "[The 2012 Race: A Tale of Two Mormons](#)", by Michael Medved, The Daily Beast, May 11, 2011

"When Jon Huntsman gets into the 2012 presidential race, he won't draw the anti-Mormon flak Mitt Romney did during the 2008 primary season ... In fact, the new contender and his most ardent admirers seem to believe that when it comes to overcoming one of the nation's most stubborn forms of religious bigotry, two Mormon candidates may be better than one."

How can this possibly be true? The reality is that, since Mitt Romney failed to win the GOP nomination in 2008, two public figures have steadily worked to bring Mormonism into Mainstream (Main Street) America:

- 1) Mitt Romney himself -- he has continually remained in the public eye, looking very Presidential and ceaselessly criticizing the policies of President Obama, holding forth the message that his business professionalism would produce a better President.
- 2) Glenn Beck has been the "John the Baptist" figure for the Mormon candidate of 2012! Just like the Biblical John the Baptist, Beck has prepared the minds and the hearts of the people to accept a Mormon as President.

Now that the average American citizen is said to be much more inclined to accept a Mormon for high office, having two highly respected Mormons jump into the race will add to the growing perception that Mormonism is just another type of Christianity! This new DVD from Bill Schnoebelen was created specifically to warn genuine Christians of the truth of Mormonism and to specifically warn them about supporting a Mormon for election in 2012!

II. The Obama Administration is boldly ramming this planned dictatorship down our throats!

NEWS BIREF: "[Federal Spychips To Hijack Your Phone](#)", BY Paul Joseph Watson, InfoWars.com, May 12, 2011

"The announcement that Americans are set to be bombarded with mandatory government propaganda via their cellphones represents a shocking lurch forward in the Obama administration's bid to launch a total takeover of all communications as part of a wider move towards controlling the Internet, developing an omnipresent wiretap system, and creating a constant environment of suspicion and distrust by enlisting citizens to spy on each other."

Wow! Seeking authority over all communications represents one of the most invasive and threatening agenda this country has ever seen. However, if the world is as close to the End of the Age as genuine Christians believe it is, then we should not be shocked that we can see the approach of the most Absolute Dictatorships in all human history forming like a threatening cloud on the horizon.

How is the Government going to utilize our phones against us?

"Short of implanting a microchip in people's heads, the US government has opted for the next best thing, a chip in your cellphone ... 'Cellphone users would not be able to opt out of 'presidential messages', with Verizon and AT&T, the nation's largest cell phone carriers, already on board. 'For now, the alerts are capable on certain high-end cell phones but starting next year, all cell phones will be required to have the chip that receives alerts', adds the report."

What is the consumer really, really does not want to listen to the Government message? Why, your phone call can be cut off!

"The messages will supersede all other phone traffic and have a unique signal and vibration, meaning that your private conversation could be cut off to make way for government propaganda in a program that resembles Minority Report-style invasiveness on steroids."

When the shocking movie, "Minority Report" came to the theaters, I watched several times, taking notes so I could thoroughly post an accurate article so my supporters could understand that this Hollywood movie was "telegraphing" what the Illuminati ultimately planned to set in place. Please take a moment to read this archived Headline News Article:

"MINORITY REPORT" -- CITIZENS ARRESTED EVEN THOUGH THEY HAVE NOT COMMITTED ANY CRIMES, SENT TO JAIL WITHOUT TRIAL AND WITHOUT RELEASE DATE"

"CURRENT FBI GUIDELINES -- CITIZENS MAY BE ARRESTED EVEN THOUGH THEY HAVE COMMITTED NO CRIME, SENT TO JAIL WITHOUT TRIAL AND WITHOUT RELEASE DATE " - [NEWS1673](#)

This country is getting very close to implementing a "Minority Report" type of dictatorship.

As it turns out, cellphone manufacturers have already paved the way technologically.

"Cell phone providers already have the capability to send out text messages to all their subscribers instantly, so why the government needs a 'special chip' to be installed will only heighten suspicions that this is a trojan horse for an omnipresent wiretap that will feed every scintilla of information from your phone directly to big brother."

The fact that no cellphone user can choose to not participate in this government messaging system raises alarms all over this country.

"This seems very suspicious. Why can people not opt out of the president's messages?" asked another. 'They pay for their phones – they should dictate what it does, not Obama'. Would the 'special chips' also empower Obama to shut down all cell phone traffic on a whim in a time of declared 'national emergency'?"

"Obama already has the power to override all radio and television networks under the recently expanded Emergency Alert System, which allows FEMA to break in on live broadcasts to send out alerts. His administration is also pushing cybersecurity legislation that would hand Obama a figurative kill switch for the Internet. The term "kill switch" is an oversimplification, what the agenda actually revolves around is the ability to impose Chinese-style censorship over the world wide web and develop an ID system that would force users to have their access controlled by a state-run licensing procedure.] The government-mandated chips would also help achieve the Department of Transportation's aim of blocking all cellphone use in cars. The chip would allow authorities to prevent use of the phone by measuring the speed you are traveling via GPS technology and shutting down the handset."

"This trifecta of broadcast media, Internet, and cellphone traffic represents a total takeover of the entire spectrum of communications in the United States by the Obama administration."

Top Illuminati kingpin, Henry Kissinger, was absolutely correct when he announced just weeks prior to Obama taking the oath of office, "Obama is primed to bring in the New World Order"!

DVD

III. Government-regulated meat in our supermarkets are now infected with MRSA, a very stubborn antibiotic resistant strain of bacteria.

Untreated, you could die.

NEWS BRIEF: "[Antibiotic-Resistant Staph Bacteria Is Found In U.S. Meat For The First Time](#)", Business Insider, May 12, 2011

"For the first time in the United States, scientists have found antibiotic-resistant MRSA in supermarket meat ... scientists at Wayne State University tested 289 raw meat samples from 30 Detroit grocery stores. Six of the samples were infected with the potentially deadly bacteria, including three chicken, two beef and one turkey."

"WSU's Yifan Zhang told Detroit News: 'Basically all meat categories have MRSA', said Yifan Zhang, a WSU assistant professor in the department of nutrition and food science.."

How bad is MRSA? If it is untreated, it can kill you. Please take a moment to see a slide show on WebMD; prepare to be shocked!

[MRSA Slide show: A Closer Look at MRSA](#)

How can this possibly be? For decades now, all meat products have been subject to "strict" Federal Government guidelines supposedly designed to protect the American consumer from grave diseases like MRSA! Either Federal Government inspectors have uniformly failed all across this nation or this situation was the goal to begin with.

In fact, in my opinion, onset of MRSA in all three major meat groups is at least part of the goal which the Government had in mind when they mandated that antibiotics be poured into the grains fed these animals in the feedlots.

New Age adherents will be very happy with this situation because they have been urging the elimination of all meat consumption as many average consumers become vegetarian! Please read one of our very earliest articles, "[PLANNED DESTRUCTION OF OUR HIGH ENTROPY CIVILIZATION AND UNSUSTAINABLE ECONOMY](#)", [NEWS1510](#).

Quoting pertinent excerpts:

"In 1981, New Age leader Jeremy Rifkin proposed a new level of wealth redistribution in a book entitled, "Entropy: A New World View". In this book, Rifkin argues that the world is using too many resources to create too many material things If the world is not to soon find itself in a position of running out of usable energy, Rifkin proposes that we must change our lifestyle dramatically. We must move into a State run economy that would regulate the production of all material things so the world will not run out of usable energy. This lifestyle is called 'Low Entropy'."

"This change, says Rifkin, will require a radical "new world view", and he urges draconian measures to achieve this new thinking. He says, 'The radical change in world view required to make this transition will have to be accomplished overnight. There will be no time for polite debate, subtle compromise, or monetary equivocation. To succeed will require a zealous determination, a militancy, if you will, of Herculean proportions'." (Ibid, p.186, Emphasis added).

"Radical Change" is what the New World Order is all about, is it not? Furthermore, the New World Order Plan foresees the absolute necessity to make changes overnight which leave no room for "for polite debate, subtle compromise, or monetary equivocation. To succeed will require a zealous determination, a militancy, if you will, of Herculean proportions'."

Jeremy Rifkin zeroes in on one meat industry in particular which is in dire need to drastic reform, driving mankind to a "Lower Entropy" level.

" Without a fundamental redistribution of wealth, all talk of lowering energy flow and heeding our planet's biological limits will result in nothing but the rich locking the poor forever into their subservient status...If they do not voluntarily begin to make this economic adjustment, then others will make it for them' ... All of the great teachers of traditional wisdom have embraced the values inherent to a low-entropy life. Buddha, Jesus, Muhammad...all led exemplary lives of simplicity, voluntary poverty, and communal sharing." (Ibid., p. 210).

"Now, Rifkin has revealed the truth about the ultimate plans for the New World Order. You and your family have just been "volunteered" to change your lifestyle to simplicity, voluntary poverty, and communal sharing. Indeed, the New World Order envisions moving the world economy back to where it was 300 years ago. Whenever you see a government document using the words 'sustainability', 'unsustainable', or 'sustainable', you can rest assured this government is fully in sync with Rifkin's Low Entropy vision."

Now, Jeremy Rifkin sets his sights on the meat slaughter industry, especially beef: ([Newsletter for 12/27/2003](#), Paragraph VII)

"Entropy is a measure of the amount of energy no longer capable of conversion into work ... Energy can only be transferred to a dissipated state." ["Beyond Beef: The Rise and Fall of the Cattle Culture", Ibid., p. 35]. Therefore, Rifkin and his ilk believe that we must take steps to achieve some Low-Entropy, steady state type of economy. Conversion to this type of economy requires not only a 'new world view', but also a draconian crisis in order to transfer from one state to the other. "

"We consumed beef to gain power over nature and our fellow human beings ... by choosing not to eat the flesh of cattle, we serve notice of our willingness to enter into a new covenant with this creature ... Freeing the bovine from the pain and indignities suffered on the modern mega-feedlots and in the slaughterhouses is a humane act of great symbolic and practical import. Liberating these creatures from the process of

dehorning, castration, and estrus-blocking, from forced hormone injections, massive doses of antibiotics, insecticide showers, and an ignoble death on an automated assembly-line kill floor, is an act of contrition. It is an acknowledgment of the damage we moderns have inflicted on the whole of creation in pursuit of unrestrained power over the forces of nature." [Beyond Beef, p. 288]

" 'Our changing relationship to the bovine ... will be a sign of the new world in the making. The benefits of moving beyond beef will be immediate and visible, providing tangible evidence of the life-affirming future that awaits our children's generation'." [Ibid., p. 289]

Now that you can sense that New Age leaders truly hate our consumption of beef -- and all meat for that matter -- can you understand why the Federal Government first took control of the slaughterhouse industry in order to "protect the consumer", but ultimately to ruin meat for consumption. Jeremy Rifkin's radical views are secretly shared by government officials and have been for decades.

Even the Christian community has supported Rifkin's radical ideas!

"Before you mistakenly believe that Rifkin is out on a limb with this view, without strong supporters, think again. Rifkin is considered one of the premier New Age leaders. Furthermore, Rifkin is considered by many Christians to be one of their own. Pat Robertson has interviewed Rifkin on his "700 Club" TV show, and in 1980, Robertson praised Rifkin's Entropy book. Finally, Rifkin's proposals have been rewritten in popular language from a most popular man, Tennessee Senator and Vice President for eight years under President Clinton: Albert Gore, in his book, "Earth In The Balance". Gore simply presents Rifkin's radical ideas in a plausible format. Make no mistake about it, Rifkin's radical concepts are the heart and soul of the New World Order Plan, and supported by political leaders throughout the Industrial world."

Millions of Americans have thus been predisposed to react to this news that our meat supply now has MRSA in the meat at our local supermarkets with a decision to switch to vegetarianism. And, when the New Age Christ comes to the world scene, announcing that he is forcing a complete switchover to vegetarianism even as he outlaws the slaughtering of all meat animals, he will meet no significant resistance.

This tainting of our meat supply is a very significant sign of the impending New World Order, a "Low Entropy" vegetarian lifestyle!
