

Sample of Other False Prophecies of the False Charters

This is a sampling of the past failed prophecies of the False Charters. They prophesied that I would die by a fireball headed for Rimbey, Alberta in 2015, and that a fiery arrow would destroy the headquarters of the San Antonio World General Conference Session in 2015. They prophesied falsely that the prophecy of Babylonian Prophet Efrain Rodriguez: The Asteroid Prophecy-An Urgent Call From the Lord would be fulfilled around July/Aug 2015. They kept moving the date forward a few years. <https://vimeo.com/120516542>
